WARMING**

Dear neighbour,

I am someone living in your area who is concerned enough about our environmental future to be out and walking today.

I am leaving you this note in the hope that you will join the call for our incoming Prime Minister to *'Walk with the People, NOT the Big Polluters'*.

While our political leaders have been squabbling, we in the community have been getting on with the business of dealing with climate change. We're going green and clean. We're saving water and energy. We're doing our bit; it's time for our government to do theirs.

We invite you to sign the petition on the reverse of this note and pop it in the post as a way of adding your voice to the call for action for a safe climate. It will be passed on to our incoming leader. Alternatively, sign online at [www.conservation.sa.org.au](http://www.conservation.sa.org.au).

Thank you for your time and support.

Jemma ☺
